Option Agreement & Signature(s)

I hereby request that Muriel Siebert & Co., LLC. open an options trading account under the registration shown on my account application. I certify that the information I have supplied in the application is wholly true and accurate; I further agree to notify Muriel Siebert & Co., LLC. of any material change in my financial situation or investment objectives, before I place my next order. I UNDERSTAND THAT OPTIONS TRADING IS RISKY. I AM AWARE OF THE LOSSES THAT I MAY REALIZE IN TRADING OPTIONS, AND I HAVE DETERMINED THAT I CAN BEAR THESE LOSSES. I have received and read the Options Agreement, and the Muriel Siebert & Co., LLC. Customer Agreement. I agree to be bound by the terms of that Agreement as it exists and as it may be amended from time to time. If I have not received a copy of the Agreement, I will notify Muriel Siebert & Co., LLC. before I place an option order. I understand that upon approval of my application to trade options, Muriel Siebert & Co., LLC. will send me a copy of the Options Disclosure Document, entitled "Characteristics and Risks of Standardized Options". I agree to refrain from placing any option order until I have read this document.

UNCOVERED OPTION WRITING- SPECIAL STATEMENT FOR WRITERS OF UNCOVERED OPTIONS:

There are special risks associated with uncovered option writing which expose the investor to potentially significant loss. This type of strategy may therefore not be suitable for all customers approved for option transactions.

- 1) The potential loss of uncovered call writing is unlimited. The writer of an uncovered call is in an extremely risky position and may incur large losses if the value of the underlying instrument increases above the exercise price.
- 2) As with writing uncovered calls, the risk of writing uncovered put options is substantial. The writer of an uncovered put option bears a risk of loss if the value of the underlying instrument declines below the exercise price. Such loss could be substantial if there is a significant decline in the value of the underlying instrument.
- 3) Uncovered option writing is thus suitable for the knowledgeable investor who understands the risks, has the financial capacity and willingness to incur potentially substantial losses, and has sufficient liquid assets to meet applicable margin requirements. In this regard if the value of the underlying instrument moves against an uncovered writer's option position, Muriel Siebert & Co., LLC. may request significant additional margin payments. If an investor does not make such margin payments, Muriel Siebert & Co., LLC. may liquidate stock or option positions in the investor's account, with little or no prior notice, in accordance with the investor's margin agreement with Muriel Siebert & Co., LLC.
- 4) For combination writing, where the investor writes both a put and a call on the same underlying instrument, the potential risk is unlimited.
- 5) If a secondary market in options were to become unavailable, investors could not engage in closing transactions, and an option writer would remain obligated until expiration or assignment.
- 6) The writer of an American-style option is subject to being assigned an exercise at any time after he has written the option until the option expires. By contrast, the writer of a European style option is subject to exercise assignment only during the exercise period.
